

ANIKET DHANJI GAMI

aniket.gami06@gmail.com | 9029614478 | Mumbai, Maharashtra, India | Portfolio | LinkedIn | GitHub

SUMMARY

AI professional with experience in **LLM applications, AI automation, data analytics, and enterprise workflow automation**. Skilled in developing AI-powered solutions using Python, OpenAI, LangChain, and cloud technologies while ensuring reliability through monitoring and validation. Experienced in technical documentation and analytical problem-solving, with a strong interest in **technology policy and data-driven decision-making**. Passionate about applying AI to strengthen India's financial ecosystem through research and innovation.

EXPERIENCE

Product Manager, Scanbiz Technologies LLP May 2026 – Present | Mumbai, India

- Led the end-to-end product lifecycle, from requirement gathering and roadmap planning to feature launch and continuous improvements.
- Collaborated with engineering, UI/UX, QA, and business teams to deliver scalable, user-centric SaaS solutions on schedule.
- Defined product requirements, user stories, and acceptance criteria to ensure successful feature development and release.
- Analyzed customer feedback and market trends to prioritize features, improve user experience, and drive product adoption.
- Managed Agile sprint planning, product testing (UAT), and cross-functional coordination to ensure high-quality product delivery.

AI Automation Intern, Pilgrim, Heavenly Secrets PVT LTD Oct 2025 – May 2026 | Mumbai, India

- Developed LLM-powered conversational AI systems using OpenAI and LangChain, enabling contextual information retrieval through vector-based search.
- Built backend services to support data ingestion, reconciliation, and validation across systems.
- Integrated internal tools and third-party services using APIs to automate business workflows.
- Implemented monitoring, logging, and error-handling mechanisms to improve the reliability of automation pipelines.
- Built scalable backend services and automation pipelines to support enterprise data exchange, validation, and reconciliation.

Data Science Intern, Awarathon Awareness Initiatives PVT LTD Jan 2024 – May 2024 | Mumbai, India

- Developed and integrated LLM-powered applications using OpenAI, LangChain, and AI agent workflows to automate business processes and knowledge retrieval.
- Built AI chatbot systems with vector-based retrieval to enable contextual knowledge search.
- Integrated various APIs to support AI-enabled applications and system integrations.
- Evaluated and optimized machine learning and LLM models for deployment use cases.
- Built retrieval-augmented AI systems that enabled real-time decision support and contextual search capabilities.

Business Analyst & Technical Documentation Intern May 2022 – Jul 2022 | Mumbai, India

Tantrasoft Solutions India PVT LTD

- Created system architecture and technical documentation (SRS, FRS, DS) for enterprise software platforms.
- Collaborated with engineering teams to support system integration and development lifecycle processes.
- Assisted in frontend development and database integration using HTML, CSS, and MySQL.
- Supported system validation, testing, and documentation for production deployments.
- Collaborated with cross-functional teams to support enterprise software integrations, system validation, and structured data workflows.

EDUCATION

Master of Computer Application (MCA) Aug 2022 – May 2024 | Mumbai, India

SVKM's Narsee Monjee Institute of Management Studies (NMIMS University)

CGPA: 3.62 / 4

Bachelor of Science in Information Technology (BSc IT) Jul 2019 – May 2022 | Mumbai, India

Narsee Monjee College of Commerce & Economics (Autonomous)

CGPA: 8.17 / 10

SKILLS

Programming Languages: Python | Core Java | R Programming | SQL

Artificial Intelligence: Large Language Models (LLMs) | OpenAI API | LangChain | Prompt Engineering | AI Automation | Machine Learning

Data Analytics: Power BI | Data Visualization | Data Mining | Data Collection | ETL | Statistical Analysis | Python Libraries

Cloud & Integration: REST APIs | Google Cloud Platform (GCP) | Google Apps Script | Hostinger & Domains

Development: Git | MySQL | HTML | CSS | JavaScript | Wordpress | Shopify | Wix
